

A large, iridescent, shell-like object, possibly a fossil or a piece of mineral, is the central focus of the image. It has a smooth, rounded shape with a surface that reflects light in a spectrum of colors, including iridescent blues, greens, and purples. The object is resting on a dark, textured rock. The background is a vast, mountainous landscape with rolling green hills and snow-capped peaks under a blue sky with scattered white clouds. The overall scene is bright and natural.
